### **Western Skies Coalition Launches Website**

Coalition dedicated to promoting issues that make America great

**Denver, Colo. (October 10, 2007)** – Today, ***Western Skies Coalition*** established a strong presence on the Internet by launching an interactive, information-packed website at [www.WesternSkiesCoalition.org](http://www.WesternSkiesCoalition.org).

***Western Skies Coalition***, a 501(c)(4) tax-exempt organization, is dedicated to promoting issues that make America great: protection of individual freedom; a pro-growth economic agenda; a strong national defense strategy; and the preservation of the environment.

“Working with policy experts and a strong grassroots network, our goal is to educate elected officials and promote policies through broadcast media, mail and the Internet,” said Sean Tonner, president of Western Skies Coalition.

***Former Colorado Governor Bill Owens*** and ***Former U.S. Secretary of Education Bill Bennett*** are two of the noted members of the constantly growing Western Skies Coalition’s Executive Committee.

The website includes discussions and white papers on topics such as tax reform, immigration, health care, energy and U.S. competition, as well as recent news stories and contribution information.

“Launching this site is the first step toward bringing important policy information to citizens of the West,” Tonner said.
